---

*Addiction Science & Clinical Practice* is published twice yearly to promote dialogue between researchers and providers with the aim of improving drug abuse treatment and research.

*AS&CP* obtains articles through reader submissions and editorial commissioning. Readers may send brief letters proposing articles that will be of interest and value to both researchers and practitioners. Final acceptance of submitted articles is contingent upon editorial judgment that they are suitable for publication in a NIDA journal and the results of peer review. Send letters to Managing Editor at the address below.

*AS&CP* is a publication of the National Institute on Drug Abuse, National Institutes of Health. Except for material specifically identified as copyrighted, all materials appearing in *AS&CP* are in the public domain and may be reproduced without permission. Citation of the source is appreciated.

This publication was produced and printed by RTI International under Contract No. N01-DA-4-1117 and HHSN271200900042C from the National Institute on Drug Abuse.

NIH Publication No. 10-7418, December, 2010
